

# **APPARATUS AND METHOD FOR ANIMATION PAD PRINTING**

## **ABSTRACT OF THE DISCLOSURE**

The present invention includes apparatus and method for image sequence  
5 transfer onto one of a plurality of a pad medium pages while the pages are aggregated  
together. A preferred embodiment for a printer includes An image transfer apparatus,  
including a housing; an image transfer engine for transferring a series of images at a  
transfer position; and a transfer medium registration system for positioning a pad  
including a plurality of transfer media releasably secured to one another, wherein the  
10 transfer registration system locates a series of individual ones of the transfer media at the  
transfer position to receive different images of the series of images. The image sequence  
transferring method includes positioning a pad at a transfer position of a transfer engine,  
the pad including a plurality of transfer media releasably secured to one another; and  
transferring a series of images to successive ones of the transfer media serially positioned  
15 at the transfer position.
